## **POLICY ON ENERGY CONSUMPTION**

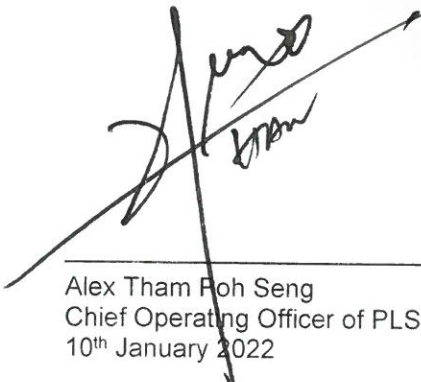

On the water, PLS Plantations Berhad will,

1. Measure/Record and publically disclose water usage in m3 based on the log record format appended
2. Aim to reduce its water consumption except for when the group is undergoing significant expansion and to prioritize water efficiency in all of its operations
3. Regularly educate, enforce and encourage water conservation behaviours such as utilizing half flushes, using potable rain water instead of utility-based
4. Regularly conduct water quality tests and perform any treatment if required compliant with JTK standards
5. Proactively consider water source alternatives such as catchment ponds, roof tanks etc

## **POLICY ON WASTE CREATION**

On water creation, PLS Plantations Berhad will,

1. Measure/Record and publically disclose waste output in MT based on the log record format appended
2. Aim to reduce its waste output and maximize the use of biodegradable alternatives
3. Regularly educate, enforce and encourage proper waste management behaviours such as landfill utilization, proper waste disposal, the utility of recycling bins where applicable, encouraging 0-waste sustainability practices such as complete utilization of plantation products and crops
4. Regularly identify if proper waste disposal and treatments are required & to minimize waste creation (including the septic tank, recycling bins etc)
