SUSTAINABLE PRODUCTION POLICY

The PLS Plantations Berhad is committed to producing products of the best quality, with minimal impact on our natural environment, providing work and fair conditions for our employees, and enriching the lives of the community. The organization supports sustainable production. Our Sustainable Production Policy is based on the following principles:

- To comply with all applicable legislation and codes of practices
- To deliver sustainable economic growth by integrating sustainability considerations into all our business decisions
- To be accountable and transparent to our stakeholders
- To support the inclusion of smallholders into a sustainable supply chain through technical advisory
- To ensure our customers, suppliers and employees are aware of our policy and encourage them to adopt responsible social and environmental practices
- Promote efficient use of materials and resources both renewal and non-renewal i.e., water, electricity, steam, biomass, biogas etc.
- Minimize pollution and manage the disposal of waste (smoke, effluent, scheduled and other solid waste) generated in accordance with the local regulations and requirements.
- To plan, implement, monitor and measure predetermined activities to mitigate environmental impacts and control carbon emissions that lead to the greenhouse effect;
- Strive to continuously improve our system and processes

Alex Tham Poh Seng
Chief Operating Officer of PLS Plantations Berhad
